P501 - Dispose of contents/container in compliance with all Federal, State/Provincial and local laws

## Hazards not otherwise classified (HNOC) or not covered by GHS

Route of Entry: Skin contact, and Eye contact.

Target Organs: Eyes, skin, respiratory system

**Inhalation:** The low vapor pressure of the resin makes inhalation unlikely in normal use.

**Skin Contact:** - Moderate irritant. Contact at elevated temperatures can cause thermal burns. May cause skin sensitization

(rashes, hives). Prolonged skin contact is unlikely to result in absorption of harmful amounts.

Eye Contact: Moderate to severe irritant. Contact at elevated temperatures can cause thermal burns.

# 4 FIRST AID MEASURES

**Inhalation:** If affected, remove to fresh air.

If not breathing, give artificial respiration.

**Skin Contact:** Wash the affected area thoroughly with plenty of water and soap.

Eye Contact: Immediately flush eyes with plenty of clean water for an extended time, not less than five (5) minutes. Flush longer if

there is any indication of residual chemical in the eye.

Ensure adequate flushing of the eyes by separating the eyelids with fingers and roll eyes in a circular motion.

**Ingestion:** DO NOT induce vomiting. If vomiting does occur, have victim lean forward to prevent aspiration. Rinse mouth with

water. Seek medical attention. Never give anything by mouth to an unconscious individual.

# 5 FIRE FIGHTING MEASURES

Flash Point: Greater than 200F

Hazardous gases/vapors produced in fire are carbon monoxide, carbon dioxide, phenolics.

Extinguishing Media: Water, foam, dry chemical, CO2.

Fire Fighting Instructions:

Full emergency equipment with self-contained breathing apparatus and full protective clothing should be worn by fire fighters. During a fire irritating, highly toxic gases may be generated by thermal decomposition or combustion. (See Section VIII) Emits toxic fumes under fire conditions. Isolate from heat, electrical equipment, sparks, and open flame. Closed container may explode when exposed to extreme heat. Wear neoprene gloves when handling refuse from fire.

## ACCIDENTAL RELEASE MEASURES

#### **Containment Techniques**

Contain spill.

6

### **Clean-Up Techniques**

Wear proper personal protective clothing and equipment.

Do not flush liquid into public sewer, water systems or surface waters.

Soak up large spill residue and small spills with an inert absorbent. Place into labeled, closed container; store in safe location to await disposal. Wash the spill area with soap and water. Dispose of in accordance with national and local regulations. Change contaminated clothing and launder before reuse.

CAUTION: Spilled liquid and dried film may be slippery. Use care to avoid falls.

7 HANDLING AND STORAGE

**Handling Precautions:** Avoid eye contact.

Avoid repeated or prolonged skin contact.

Avoid inhalation of aerosol, mist, spray, fume or vapor. Avoid drinking, tasting, swallowing or ingesting this product.

Wash thoroughly after handling this product. Always wash up before eating, smoking or using the

facilities.

Provide eyewash fountains and safety showers in the work area.

Use under well ventilated conditions.

**Storage Requirements:** Do not store in open, unlabeled or mislabeled containers.

Do not allow product to freeze.
Do not puncture or stack drums.
Keep container closed when not in use.

Do not reuse empty container without commercial cleaning or reconditioning.

EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls: Always provide effective general and, when necessary, local exhaust ventilation to draw spray, aerosol,

fume, mist and vapor away from workers to prevent routine inhalation. Ventilation must be adequate to

maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the MSDS.

Ventilation guidelines/techniques may be found in publications such as Industrial Ventilation: American Conference of Governmental Industrial Hygienists, 1330 Kemper Meadow Drive, Cincinnati, OH, 45240

1634, USA.

**Personal Protective** 

**Equipment:** 

8

Eye/Face Protection

Wear eye protection (chemical goggles or goggles and an 8-inch (minimum) full face shield where

spilling and splashing may occur).

Skin Protection

Wear chemical resistant (impervious) gloves.

Respiratory Protection

Wear a respirator approved by NIOSH/MSHA (e.g., an organic vapor respirator, a full face air purifying respirator for organic vapors, or a self contained breathing apparatus) whenever exposure to aerosol, mist, spray, fume or vapor exceed the exposure limit(s) of any chemical substance listed in this MSDS. Use respirator in accordance with manufacturer's use limitations and OSHA standard 1910.134

(29CFR).
